

S118 低频音箱

音箱特性：

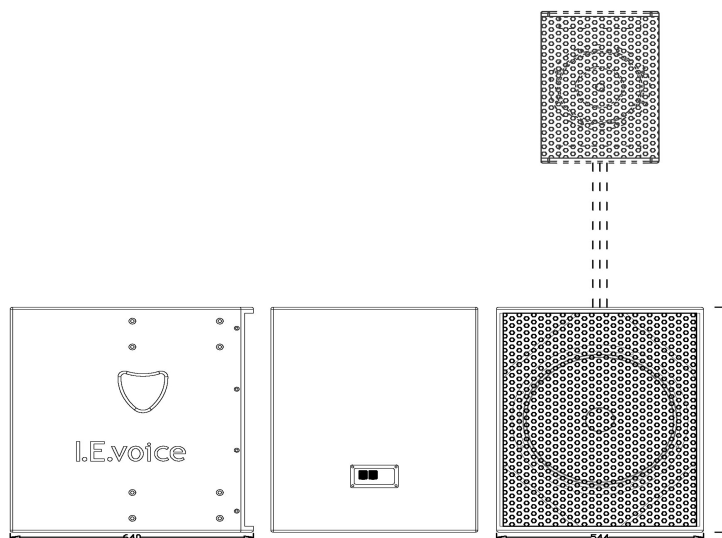

采用多层实木甲板根据独有的结构设计理念,制作出坚固箱体并具有唯美的外观视觉效应感,低频喇叭单元在坚固和独特设计的箱体结构中工作,更增强了动态感和动态饱和度。

坚固的木制箱体，支持通过安装杆安装或与阵列(Array)扬声器堆叠安装。

应用环境：

本型号产品适用于专业流动演出或固定安装场景。采用钢加固的13层桦木箱体，大声压仍保持极低失真,可组合成心型阵列来提升低频的指向性。

规格	参数
频率响应 (-10dB)	30Hz-300Hz
额定阻抗	8Ω
灵敏度 (1W/1m)	99dB
最大声压	133dB
单元结构	1×18"低音
额定功率	800W
峰值功率:	1200W
外型尺寸 (WxHxD)	544 x 697 x 640mm
重量	31Kg (含包装)
主体颜色	黑色 (B)

S118 Low-frequency speakers

Speaker features:The use of multi-layer solid wood deck according to the unique structural design concept, the production of a solid box and beautiful appearance of the visual effect, low frequency horn unit in the solid and unique design of the box structure, but also enhance the dynamic sense and dynamic saturation.

A sturdy wooden case that supports mounting through mounting rods or stacks with Array speakers.

Application environment:

This model is suitable for professional mobile performance or fixed installation scene. The 13-layer birch box reinforced with steel still keeps very low distortion under loud pressure, and can be combined into a central array to improve the low frequency directivity.

Specifications	Parameter
Frequency response (-10dB)	30Hz-300Hz
Rated impedance	8Ω
Sensitivity (1W/1m)	99dB
Maximum sound pressure	133dB
Structure	1X18" bass
Rated power	800W
Peak power:	1200W
Dimensions (WxHxD)	544 x 697 x 640mm
Weight	31Kg
Color	Black
